Matt,

Glad to hear that you figured out the infection – it sounded like that was the problem when we talked. So, let's not talk today given your situation.

I will look into the TO (and have contacted Joni) but not sure what the hang-up is. Plan on proceeding with billing to Red and Bonita, but if you need to charge the mob to the Gold King for now that's fine. If need be I'll have them add some \$ to the existing R n B Assessment Task order.

As for the grading ontop of the waste dump / portal entry area, I would like to figure out a way to make the front of the gate area accessible / level for moving in and out with supplies, etc. The drainage obviously needs to continue through a pipe though. That piece of work, getting the pad area set up alone, would be very useful to get done this year. Give it some thought, we'll exchange notes on how we can to that.

If I can get information on the snow conditions in Silverton, I will pass that on to you.

Thanks

It doesn't look like we have received the new TO yet. Do you want me to utilize the Gold King TO until we see the new RnB? Looks like it worked out that I didn't try to start yesterday.

Hopefully good weather next week. CAT will drop the excavator today, the loader Monday and the mini Tuesday. My update: I found out Monday afternoon that I had developed a nasty infection that spread across the left side of my head. I was f'd up and delirious for about 36hrs. Now the antibiotics have taken over and I'm off the pain meds. Still on a liquid diet due to locked jaw and I still can't talk for more than a few minutes, but am feeling much better.
